Helping You Retire With Confidence

Achieve financial security and confidence
throughout your entire retirement.

What you should expect from Annuity Gator

Annuity Gator makes the process of planning for retirement and choosing the right annuity much more convenient, while at the same time keeping it personal.

We specialize in helping Americans financially prepare for retirement with the proper use of annuities. Our technology scours our up-to-date Annuity Review Database to evaluate hundreds of annuities of all shapes and sizes, from top-rated insurance carriers.

By delving into the good, the bad, and yes, sometimes even the ugly, you'll find everything you need to know for determining whether or not a particular annuity may (or may not) be right for you.

Yet, while we provide a myriad of annuity information directly on our website, we know that the process of narrowing down the right annuity can be somewhat challenging.

Our team will provide you with retirement planning guidance and annuity recommendations to help you reach your retirement goals.

We help take the mystery out of annuities by answering some of the most commonly asked questions in a simple, personalized way.

Why choose Annuity Gator to help you financially prepare for retirement?

“

Generating income for your needs, not ours.

”

Our entire business model is centered around educating people about annuities and how they can be used for achieving financial goals like:

Covering your monthly income needs with a guaranteed check that will last your lifetime.

Growing your assets and protecting them from market losses.

Paying for costly health or long-term care needs.

Leaving a legacy.

We know that once you retire, the way you manage your money changes. It's no longer about taking on bigger risks to maximize your potential return. It's not about complexity, in fact it's the opposite. It's about simplifying, minimizing risk and optimizing cash flow.

It's about having enough income coming in every month so you can make your retirement lifestyle a reality.

Using our proprietary technology, we'll help you eliminate all of the confusion and guesswork that typically comes with choosing the right financial tools to fit your specific short and long-term goals.

We work with numerous of the top-rated insurance companies, so rather than trying to sell you limited – and often inadequate – products from just a few small “shelves,” we can go out into the marketplace and match you with a more customized plan that is based on your specific needs.

So, unlike insurance and financial salespeople who work for a single company, we are independent and can work with any company. We are not beholden to any one company, instead we will show you the companies that offer the best benefits for **YOU**.

We promise to be:

Honest. While financial tools like annuities can certainly offer many benefits, there are also some areas you need to look out for. That's why we don't always paint a rosy picture of the products that are reviewed in our database. We feel that knowing the **WHOLE** story allows you to make a much better decision regarding whether or not a product is truly right for you.

Transparent. Likewise, we promise to provide you with full disclosure regarding any surrender fees or other rider fees you may incur if you decide to move forward with purchasing a particular product or building an income plan.

Professional. Our annuity experts are all licensed financial advisors that are fully vetted and have passed rigorous licensing and training requirements, and strictly abide by ethics and fiduciary standards. No insurance company's incentives or compensation impacts the recommendations we make. **At Annuity Gator, we work for YOU – and we take that responsibility very seriously.**
